

In the Claims:

B *C*
Claim 10 (amended). A printing machine comprising at least one roller with a circumferential surface provided with a surface structure and formed of a nonmetallic material, said circumferential surface carrying a liquid, and said roller being selected from the group of rollers consisting of a slip roller and a vibrator roller.

Enter the Following New Claims:

--11. The rotatable body according to claim 10, wherein said circumferential surface carries a viscid liquid.

12. The rotatable body according to claim 10, wherein said circumferential surface carries an offset printing ink.

13. The rotatable body according to claim 10, wherein said circumferential surface carries a printing-ink emulsion.

14. The rotatable body according to claim 10, wherein said circumferential surface carries a dampening-solution emulsion.--

Remarks:

Reconsideration of the application is requested.

Claims 1 to 14 are now in the application. Claims 11 to 14 have been added and claim 10 has been amended. A marked-up version of the claim is attached hereto on a separate page.

On page 2 of the above-identified Office action, claims 1 to 3 and 10 have been rejected as being fully anticipated by Guaraldi et al. (U.S. 5,027,705; hereinafter "Guaraldi") under 35 U.S.C. § 102.
